PROFESSIONAL SUMMARY

Lead Full Stack Developer with 4+ years of experience building and delivering production web and mobile applications. Experienced in owning products from architecture and UI design through development, deployment, and ongoing improvement. Currently leading development of a healthcare practice-management and patient-booking platform used by 20+ therapists and more than 10,000 patients across Germany and Austria. Strong background in Angular, React, Next.js, Node.js, TypeScript, real-time systems, healthcare workflows, cloud infrastructure, and team leadership.

TECHNICAL SKILLS

Frontend: Angular, React, Next.js, Ionic, RxJS, NgRx, Redux, Tailwind CSS, Angular Material, PrimeNG

Mobile: Ionic, React Native, Flutter

Programming Languages: TypeScript, JavaScript, Python, SQL, HTML5, CSS3

Backend: Node.js, NestJS, Express.js, FastAPI, REST APIs, WebSockets, Socket.IO, Firebase Functions, Microservices

Cloud and DevOps: AWS EC2, AWS S3, AWS Lambda, AWS SNS, Docker, Nginx, GitHub Actions, CI/CD, Vercel

Databases: PostgreSQL, MongoDB, MySQL, MariaDB, Redis, Firestore, TypeORM, Prisma, Sequelize, Mongoose

Integrations and Testing: Stripe, Twilio, Firebase Cloud Messaging, OAuth, third-party APIs, Playwright, Git, GitHub

PROFESSIONAL EXPERIENCE

Lead Full Stack Developer

TMN Development KG - Innsbruck, Austria | Mar 2025 - Present

- Lead the development of Ludwig, a production healthcare practice-management and patient-booking platform used by 20+ therapists and more than 10,000 patients across Germany and Austria.
- Built Ludwig largely from scratch, owning product architecture, UI design, frontend development, backend integration, testing, deployment, and ongoing improvements.
- Work directly with the CEO to translate business requirements into scalable technical solutions and user-friendly healthcare workflows.
- Developed clinical documentation, patient management, appointment scheduling, recurring bookings, resource management, therapist absences, waiting lists, available time slots, and statutory health insurance invoicing.
- Implemented multi-tenant architecture and offline-first synchronization with conflict handling to support reliable usage across practices and environments.
- Develop responsive web and mobile experiences using Angular, Ionic, TypeScript, Next.js, React, and Flutter.
- Guide a team of 3-4 engineers across additional products through technical direction, code reviews, implementation support, and delivery guidance.
- Contributed to additional products including a business connector, business-card management platform, and regional public registry platform for recently deceased persons.

Stack: Angular 19, Ionic 8, TypeScript, Next.js 16, React 19, Flutter, RxJS, NgRx Signals, Tailwind CSS, Playwright, PDF workflows

Full Stack Developer | Team Lead

Pikessoft - Lahore, Pakistan | Sep 2022 - Feb 2025

- Led a team of 5-10 developers delivering full stack web and mobile applications for logistics, marketplaces, real estate, and field-service businesses.
- Designed and developed scalable frontend and backend systems using React, Angular, Next.js, Node.js, NestJS, and React Native.

- Built real-time communication features including chat, group messaging, push notifications, live order tracking, and operational status updates.
- Developed REST APIs and backend services using MongoDB, MariaDB, Redis, Firebase, and Node.js.
- Integrated payment gateways, third-party services, cloud infrastructure, and notification systems into client-facing platforms.
- Conducted code reviews, mentored junior developers, clarified client requirements, and supported delivery planning and technical decision-making.

Stack: React, Angular, Next.js, React Native, Node.js, NestJS, MongoDB, MariaDB, Redis, Firebase, AWS, Docker, REST APIs

SELECTED PROJECTS

Ludwig Practice Suite - Healthcare Practice Management and Patient Booking Platform

Angular, Ionic, TypeScript, Next.js, React, Flutter, RxJS, Tailwind CSS, Playwright, PDF generation

- Developed patient management, clinical documentation, appointment scheduling, recurring bookings, therapist availability, waiting lists, resource management, and statutory insurance invoicing.
- Built web and mobile interfaces with Angular, Ionic, React, Next.js, and Flutter, including offline-first synchronization, multi-tenancy, PDF workflows, and Playwright testing.

HIS - Healthcare Workforce Management System

React, React Native, TypeScript, Node.js, AWS, Docker

- Built scheduling logic for complex hospital rostering including rotating and night shifts.
- Implemented attendance, leave-request and overtime tracking with automated reporting, replacing manual record-keeping.

SandSeekers - Dubai Real Estate Platform

Next.js, Node.js, MongoDB, Data Integrations

- Led end-to-end delivery of a residential and commercial property platform, owning architecture, the development team and client communication.
- Built a custom CRM for listings, leads and property-demo bookings.

EDUCATION

MSc Computer Science

University of Innsbruck - Austria | 2024 - Ongoing

BSc Computer Science

COMSATS University - Pakistan | 2018 - 2022

CERTIFICATIONS

- MERN Stack Developer Certificate
- Front-End Development Certificate
- Project Management for Web Developers
