PROFESSIONAL SUMMARY

Lead Full Stack Developer with 4+ years of experience building and delivering production web and mobile applications. Experienced in owning products from architecture and UI design through development, deployment, and ongoing improvement. Currently leading development of a healthcare practice-management and patient-booking platform used by 20+ therapists and more than 10,000 patients across Germany and Austria. Strong background in Angular, React, Next.js, Node.js, TypeScript, real-time systems, healthcare workflows, cloud infrastructure, and team leadership.

TECHNICAL SKILLS

Programming Languages: TypeScript, JavaScript, Python, SQL, HTML5, CSS3

Frontend: Angular, React, Next.js, Ionic, RxJS, NgRx, Redux, Tailwind CSS, Angular Material, PrimeNG

Backend: Node.js, NestJS, Express.js, FastAPI, REST APIs, GraphQL, WebSockets, Socket.IO, Firebase Functions, Microservices, Spica

Databases: PostgreSQL, MongoDB, MySQL, MariaDB, Redis, Firestore, TypeORM, Prisma, Sequelize, Mongoose

Cloud and DevOps: AWS EC2, AWS S3, AWS Lambda, AWS SNS, Docker, Nginx, GitHub Actions, CI/CD, Vercel, Git, GitHub, GitLab, Bitbucket

Mobile: Ionic, React Native, Flutter

Integrations and Testing: Stripe, Twilio, Cloudinary, Firebase Cloud Messaging, OAuth, Google Maps APIs, third-party APIs, Jest, Playwright, ESLint, SonarQube

PROFESSIONAL EXPERIENCE

TMN Development KG — Innsbruck, Austria

Lead Full Stack Developer | March 2025 – Present

- Lead the development of Ludwig, a production healthcare practice-management and patient-booking platform used by 20+ therapists and more than 10,000 patients across Germany and Austria.
- Own Ludwig end to end — product architecture, UI design, frontend development, backend on Spica, testing, deployment, and ongoing improvements, built largely from scratch.
- Work directly with the CEO to translate business requirements into scalable technical solutions and user-friendly healthcare workflows.
- Deliver clinical documentation, patient management, appointment scheduling, recurring bookings, resource management, therapist absences, waiting lists, available time slots, and statutory health insurance invoicing.
- Implement multi-tenant architecture and offline-first synchronization with conflict handling to support reliable usage across practices and environments.
- Build responsive web and mobile experiences using Angular, Ionic, TypeScript, Next.js, React, and Flutter.
- Guide a team of 3–4 engineers across additional products through technical direction, code reviews, implementation support, and delivery guidance.
- Contribute to additional products including a business connector, business-card management platform, and regional public registry platform for recently deceased persons.

Technologies: Angular 19, Ionic 8, TypeScript, Next.js 16, React 19, Flutter, RxJS, NgRx Signals, Tailwind CSS, Playwright, Spica (buckets and functions), PDF workflows

Pikessoft — Lahore, Pakistan

Full Stack Developer | Team Lead | September 2022 – February 2025

- Led a team of 5–10 developers delivering full stack web and mobile applications for logistics, marketplaces, real estate, and field-service businesses.
- Designed and developed scalable frontend and backend systems using React, Angular, Next.js, Node.js, NestJS, and React Native.
- Built real-time communication features including chat, group messaging, push notifications, live order tracking, and operational status updates.
- Developed REST APIs and backend services using MongoDB, MariaDB, Redis, Firebase, and Node.js.

- Integrated payment gateways, third-party services, cloud infrastructure, and notification systems into client-facing platforms.
- Conducted code reviews, mentored junior developers, clarified client requirements, and supported delivery planning and technical decision-making.

Technologies: Node.js, NestJS, Express.js, TypeScript, Python, React, Angular, Next.js, React Native, PostgreSQL, MongoDB, MariaDB, Redis, TypeORM, Sequelize, Mongoose, GraphQL, REST APIs, AWS (S3, SNS), Cloudinary, Docker, Firebase, Jest

SELECTED PROJECTS

Ludwig Practice Suite — Healthcare Practice Management and Patient Booking Platform

- Developed patient management, clinical documentation, appointment scheduling, recurring bookings, therapist availability, waiting lists, resource management, and statutory insurance invoicing.
- Built web and mobile interfaces with Angular, Ionic, React, Next.js, and Flutter, including offline-first synchronization, multi-tenancy, PDF workflows, Playwright testing, and a Spica backend of buckets and functions.

Atomix Logistics — 3PL Logistics and Order Fulfilment Platform | atomixlogistics.com

- Developed order fulfilment, inventory management, packaging, ecommerce automation, and delivery-tracking workflows.
- Implemented real-time order updates and operational dashboards using Angular, PrimeNG, TypeScript, Node.js, Express.js, Sequelize, MariaDB, Firebase, and AWS S3.

EquipX — Heavy Equipment Marketplace | equipx.com

- Developed marketplace functionality covering search, filtering, financing, logistics, and product discovery.
- Built real-time chat and communication features using React, Next.js, Node.js, Express.js, and Socket.IO, with Stripe, MongoDB, Cloudinary, and AWS integrations.

EDUCATION

University of Innsbruck — Innsbruck, Austria

Master of Science in Computer Science | 2025 – 2027

COMSATS University Islamabad — Pakistan

Bachelor of Science in Computer Science | 2018 – 2022

CERTIFICATIONS

MERN Stack Developer | Front-End Development | Project Management for Web Developers
