PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years shipping production web and mobile software, currently lead developer on a medical practice-management suite for the German and Austrian market. Comfortable across Angular, React and Next.js on the front end with Node.js and Python behind them, and experienced in the regulated-domain work that goes with it: clinical documentation, statutory insurance billing, multi-tenancy and offline-first synchronisation.

TECHNICAL SKILLS

Frontend: Angular, React, Next.js, Ionic, React Native, Flutter, TypeScript, RxJS, NgRx Signals, Redux, Tailwind CSS, Angular Material, PrimeNG

Languages: TypeScript, JavaScript (ES6+), Python, SQL, HTML5, CSS3

Mobile: Flutter, React Native, Capacitor, iOS, Android

Backend: Node.js, NestJS, Express.js, FastAPI, REST APIs, WebSockets / Socket.IO, Firebase Functions, Microservices

Cloud & DevOps: AWS (EC2, S3, Lambda, SNS), Docker, CI/CD, GitHub Actions, Vercel, Nginx

Data: Python web scraping, Scrapy / BeautifulSoup / Playwright, ETL pipelines, Data normalisation

Databases: PostgreSQL, MongoDB, MySQL, MariaDB, Redis, Firebase Firestore, TypeORM, Prisma, Sequelize, Mongoose

Domain: Healthcare / practice management, Clinical documentation, Statutory health-insurance billing, Appointment scheduling, Multi-tenant architecture, Offline-first & conflict resolution, GDPR

Integrations: Stripe, Twilio, Firebase Cloud Messaging, OAuth 2.0, Payment Gateways

Practices & Tools: Agile / Scrum, Code review, Playwright end-to-end testing, Unit & integration testing, i18n (DE/EN), Versioned internal libraries, Trunk-based Git, Technical documentation, Client communication, Git, GitHub, Bitbucket, Jira, Figma, ESLint, SonarQube, Postman, Android Studio, Xcode

PROFESSIONAL EXPERIENCE

Full Stack Developer

TMN Development KG - Austria | Mar 2025 - Present

- Lead developer on Ludwig, a medical practice-management and patient-booking suite for physiotherapy and doctors' practices in Germany and Austria, owning features end to end from data model and API integration through to the interface.
- Built clinical documentation to the standards Austrian and German practices are legally required to keep, including an anatomical body chart stored as structured data so it opens unchanged on any client.
- Delivered statutory health-insurance invoicing: tariff-priced position lines, gap-free invoice numbering per company, and PDF export with SEPA payment QR codes.
- Implemented multi-tenancy on two axes, so one deployment serves many practices while practice groups partition patients, invoicing and outbound mail across sub-companies.
- Built offline-first working with two-way synchronisation and conflict review, so practitioners keep working in the field without overwriting colleagues' changes.
- Shipped a configuration-driven patient booking wizard in Next.js and React, with per-practice theming, one-time-code login and embeddable appointment and course booking.
- Delivered three further products alongside Ludwig: a business-connector application, a business-card manager for company details, and a national public registry of deceased persons.

Stack: Angular 19, Ionic 8, TypeScript, Next.js 16, React 19, Flutter, RxJS, NgRx Signals, Tailwind CSS, Playwright

Full Stack Developer

Pikessoft - Lahore, Pakistan | Sep 2022 - Feb 2025

- Led delivery on client platforms across logistics, marketplace, real-estate and field-service products, from architecture through release.

- Built real-time features including chat, group messaging, push notifications and live order tracking across web and mobile clients.
- Designed REST APIs over MongoDB, MariaDB and Redis, tuning queries and caching to keep dashboards responsive at scale.
- Integrated payment providers and third-party APIs to automate order and fulfilment flows.
- Mentored junior developers, ran code reviews, and handled client requirements and delivery planning directly.

Stack: React, Angular, Next.js, React Native, Node.js, NestJS, MongoDB, MariaDB, Redis, Firebase, AWS, Docker

Web Developer Intern

Innovage.io - Pakistan | Apr 2022 - Aug 2022

- Built responsive interfaces and integrated payment and geolocation APIs into client web applications, with backend support and manual testing.

Stack: React, JavaScript, Node.js, REST APIs

SELECTED PROJECTS

Ludwig Practice Suite - Medical Practice Software (Germany / Austria)

Angular, Ionic, TypeScript, Next.js, React, Flutter, RxJS, Tailwind CSS, Playwright, PDF generation

- Lead contributor to the practice dashboard, covering calendar, patients, clinical documentation, invoicing, courses and insurance tariffs in Angular and Ionic.
- Built appointment scheduling against real constraints: recurring series, practitioner and room resources, absences, waiting lists and free-slot computation.

Meine Termine - White-label Appointment Booking

Next.js, React, TypeScript, Multi-tenant

- Principal contributor to a multi-tenant white-label booking wizard, the predecessor of Ludwig's patient-facing flow.

SandSeekers - Dubai Real Estate Platform

Next.js, Node.js, MongoDB, Data Integrations

- Led end-to-end delivery of a residential and commercial property platform, owning architecture, the development team and client communication.
- Built a custom CRM for listings, leads and property-demo bookings.

EDUCATION

MSc Computer Science

University of Innsbruck - Austria | 2024 - Ongoing

BSc Computer Science

COMSATS University - Pakistan | 2018 - 2022

CERTIFICATIONS

- MERN Stack Developer Certificate
- Front-End Development Certificate
- Project Management for Web Developers
