PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years shipping production web and mobile software, currently lead developer on the practice dashboard of a nine-application medical practice-management suite for the German and Austrian market. Comfortable across Angular, React and Next.js on the front end, Node.js and Python behind them, and Flutter on mobile - with the regulated-domain work to go with it: clinical documentation, statutory insurance billing, multi-tenancy and offline-first synchronisation.

TECHNICAL SKILLS

Frontend: Angular, React, Next.js, Ionic, React Native, Flutter, TypeScript, RxJS, NgRx Signals, Redux, Tailwind CSS, Angular Material, PrimeNG

Languages: TypeScript, JavaScript (ES6+), Python, Dart, SQL, HTML5, CSS3

Mobile: Flutter, Dart, Riverpod, React Native, Capacitor, iOS, Android

Backend: Node.js, NestJS, Express.js, FastAPI, REST APIs, WebSockets / Socket.IO, Firebase Functions, Microservices

Cloud & DevOps: AWS (EC2, S3, Lambda, SNS), Docker, CI/CD, GitHub Actions, Vercel, Nginx

Data: Python web scraping, Scrapy / BeautifulSoup / Playwright, ETL pipelines, Data normalisation

Databases: PostgreSQL, MongoDB, MySQL, MariaDB, Redis, Firebase Firestore, TypeORM, Prisma, Sequelize, Mongoose

Domain: Healthcare / practice management, Clinical documentation, Statutory health-insurance billing, Appointment scheduling, Multi-tenant architecture, Offline-first & conflict resolution, GDPR

Integrations: Stripe, Shopify, Amazon FBA/FBM, WooCommerce, Twilio, Firebase Cloud Messaging, OAuth 2.0, Payment Gateways

Practices & Tools: Agile / Scrum, Code review, Playwright end-to-end testing, Unit & integration testing, i18n (DE/EN), Versioned internal libraries, Trunk-based Git, Technical documentation, Client communication, Git, GitHub, Bitbucket, Jira, Figma, ESLint, SonarQube, Postman, Android Studio, Xcode

PROFESSIONAL EXPERIENCE

Full Stack Developer - Lead Frontend, Ludwig Practice Suite

TMN Development KG - Austria | Mar 2025 - Present

- Lead developer on the practice dashboard of Ludwig, a medical practice-management suite for physiotherapy and doctors' practices in Germany and Austria - 1,140 of 1,553 commits over 14 months on a 14-contributor, nine-application product.
- Built clinical documentation to the conventions Austrian and German practices are legally obliged to keep - patient history, diagnosis, examination findings and therapy progress - with an anatomical body chart stored as structured data so a chart drawn in the Flutter app opens in the Angular dashboard.
- Delivered statutory health-insurance invoicing: tariff-priced position lines, gap-free per-company invoice number ranges, customer-supplied layouts rebuilt as a data-driven template library, and PDF export with SEPA payment QR codes.
- Implemented multi-tenancy on two axes - one deployment serving many practices, and practice groups partitioning patients, invoicing, number ranges and outbound mail across sub-companies.
- Built offline-first practice work with two-way synchronisation and a conflict-review screen, so practitioners keep working in the field without overwriting colleagues' changes.
- Shipped a configuration-driven patient booking wizard in Next.js 16 and React 19 - per-practice theming, one-time-code email login, appointment and course booking with waiting lists, embeddable in a practice's own website.

Stack: Angular 19, Ionic 8, TypeScript, Next.js 16, React 19, Flutter, Dart, Riverpod, RxJS, NgRx Signals, Tailwind CSS, Playwright

Full Stack Developer

Pikessoft - Lahore, Pakistan | Sep 2022 - Feb 2025

- Led development on multiple client platforms - logistics, marketplace, real-estate and field-service products - from architecture through release.
- Built real-time features including chat, group messaging, push notifications and live order tracking across web and mobile clients.
- Designed and integrated REST APIs against MongoDB, MariaDB and Redis, and tuned queries and caching to keep dashboards responsive at scale.
- Integrated e-commerce and payment platforms including Shopify, Amazon, WooCommerce and Stripe to automate order and fulfillment flows.
- Mentored junior developers, ran code reviews, and handled direct client requirement-gathering and delivery planning.

Stack: React, Angular, Next.js, React Native, Node.js, NestJS, MongoDB, MariaDB, Redis, Firebase, AWS, Docker

Web Developer Intern

Innovage.io - Pakistan | Apr 2022 - Aug 2022

- Built responsive interfaces and integrated payment and geolocation APIs into client web applications, with backend support and manual testing.

Stack: React, JavaScript, Node.js, REST APIs

SELECTED PROJECTS

Ludwig Practice Suite - Medical Practice Software (Germany / Austria)

Angular, Ionic, TypeScript, Next.js, React, Flutter, Dart, Riverpod, RxJS, Tailwind CSS, Playwright, PDF generation

- Lead contributor to the practice dashboard - calendar, patients, clinical documentation, invoicing, courses, insurance tariffs and staff across roughly 40 feature areas in Angular 19 and Ionic 8.
- Built appointment scheduling against real constraints: recurring series, practitioner and room resources, absences, waiting lists, free-slot computation and overlapping-appointment layout, with per-week incremental loading.

Meine Termine - White-label Appointment Booking

Next.js, React, TypeScript, Multi-tenant

- Top contributor with 116 of 281 commits, building the per-tenant booking flows that the Ludwig patient wizard was later built on.

HIS - Healthcare Workforce Management System

React, React Native, TypeScript, Node.js, AWS, Docker

- Built scheduling logic for complex hospital rostering including rotating and night shifts.
- Implemented attendance, leave-request and overtime tracking with automated reporting, replacing manual record-keeping.

EDUCATION

MSc Computer Science

University of Innsbruck - Austria | 2024 - Ongoing

BSc Computer Science

COMSATS University - Pakistan | 2018 - 2022

CERTIFICATIONS

- MERN Stack Developer Certificate
- Front-End Development Certificate
- Project Management for Web Developers
